

TFT-replacement 9" EL

Index MS42C

Overview:

- 9" TFT replacement Display Sharp LJ640U32 in Index MS42C
- connector and signal timing compatible to the control
- adjustments via On-Screen-Menue
- long-term availability
- front adapter black

Description:

9" Displays are used as replacement for 9" EL Displays (Sharp LJ640U32) in Index machines with control MS42C.

The default timing is compatible to the control, this means after connecting the display the visualisation works correctly. Further adjustments can be made via on-screen-menu. The connector and interface for the graphic-signal and power supply are compatible to the control, so the replacement is easy.
